Avery Dennison® V-Tool Attaching System

Elevating Brands and Accelerating Performance
Throughout the Global Retail Supply Chain

Accelerate Performance: Price Management

Our innovative identification, promotional and informational solutions not only add to consumer appeal and perceived value, they facilitate supply chain visibility and process improvement, increasing speed, accuracy, productivity and margins for retail operations worldwide.

The Most Efficient Fastening System for Tagging Hard Goods

The highly reliable Avery Dennison V-Tool Fastening system efficiently applies loop-fastened tags to:

- Belts and sunglasses
- Kitchen utensils
- Zipper pulls on purses, wallets
- Apparel buttonholes

Goods are not penetrated with a needle. Instead, the unit's hook applicator wraps around a selected area of the merchandise, while the trigger-operated tool fastens the loop closed.

Reduces Labor Costs for Manufacturers

- Tags items in a single-step operation, eliminating the need for time-consuming, hand-applied traditional loop fasteners or string
- One-hand operation leaves the other hand free to grasp and tag merchandise, increasing production through-put
- Tags up to 50 items per clip of fasteners

Reduces Operator Fatigue

- Lightweight and ergonomic design has a short reach actuation trigger, maximizing user comfort
- Single-handed trigger operation requires less operator effort than hand-applied fasteners

Increased Security at Retail

- The system's tamper-proof loop forms a strong lock, reducing the risk of ticket switching

Elevating Brands. Accelerating Performance.

Experience this and many other supply chain solutions at our worldwide Customer Design and Innovation Centers. For more information on the Avery Dennison V-Tool Attaching System or to schedule a tour of our Customer Design and Innovation Centers, please call 800.543.6650, prompt 5, or e-mail rbis.solutions@averydennison.com.
